COVID-19 Policies

(will update as needed)

Check temperatures and wash hands at home. No temperature 100 or above will be accepted into the school.

Temperatures will also be checked at the school door. Please do not leave until your child has been checked and told by a teacher; It is safe to enter and wash their hands. It is helpful when you remind your child before school that they need to wash their hands after they enter.

Please respect others' comfort levels. Mask wearing is currently optional. Please give others their space. Attempt to stagger your drop-offs and pickups, to avoid congestion in the parent lobby.

We realize allergies happen; we ask that you understand that this means extra bodily fluids entering into the classroom. Please take all precautions before sending your child to school. If they are not 100% healthy, please do not bring them. This includes allergy attacks.

Children will be checked at the door. If a teacher feels for any reason that the child does not look or act in good health, we will ask that you take them home.

If there is a positive within the immediate family (living in your home) we ask that you wait two weeks before returning to school, and that all family members are symptom-free for 72 hours before returning (this means 72 hours after the mandatory two weeks)

If there is a positive in your family, you are asked to notify us immediately so that the classroom can be closed for 48 hours for a complete cleaning.

If a sibling is sent home from LCSD #1 and asked to quarantine because they have had contact with someone with COVID, please keep your preschooler at home.

Here's the bottom line. Please be safe. Please be smart. Respect others. Take this seriously. When you do, it not only protects your family but others who attend little peaches. It also protects Little Peaches.

As a program, we reserve the right to refuse a child in the classroom to protect the other families. Thank you for understanding!

Abby
